Assessment

Schools are required to:	Schools are supported by:
<p>Teachers are required to assess and monitor student growth, learning progress and achievement against the curriculum standards, and within the learning and teaching program in their school.</p> <p>Assessment and reporting practices play important roles in the development of the learning culture within a Catholic school. Assessment is a means for leaders, teachers and students to learn alongside one another, in affirming progress and meeting regulatory responsibilities to engage authentically with students and families to identify student learning progress, and opportunities for further growth and development.</p> <p>In every Catholic school, there is the goal of the full flourishing of each student across religious, physical, cognitive, social and emotional domains. This multi-dimensional approach to assessment of learning respects the sacred dignity of the learner, and engenders a sense of being valued and understood.</p>	<ul style="list-style-type: none"> ● <i>Horizons of Hope Foundation Statement: Assessment in a Catholic School</i> ● Victorian Curriculum F–10 ● <i>Horizons of Hope Foundation Statement: Learning Diversity in a Catholic School</i> ● <i>Horizons of Hope Foundation Statement: Wellbeing in a Catholic School</i> ● NAPLAN ● Other testing regimes

Assessment principles

Horizons of Hope identifies the following principles for assessment in Catholic schools:

Focused on growth:

- Assessment and reporting will be relevant and timely to each learner.
- Students understand their learning progress.
- Students receive feedback about their challenges while forming and valuing positive attitudes towards learning.
- Educators critically question the impact of their decisions on student learning.
- Feedback is integral to the learning process, enabling students to self-regulate, self-assess and reflect on their own learning.

Relational:

- Assessment and reporting will provide a strong foundation for authentic dialogue about learning progress between teachers, students and families.

- Students and teachers are both partners in the learning as the teacher constantly shapes and evolves their practice and pedagogy, while the student perseveres and progresses in response to evidence uncovered and timely feedback.

Ongoing and continuous:

- Teachers are alert to the needs of students, founded on their knowledge of each student’s narrative.
- Assessment, feedback and data-gathering techniques are authentic, varied and diverse.
- Assessment of learning is continuous, allowing students to demonstrate their progress and flourish.
- Feedback is continuous, accurate and forward-focused.

Monitoring and reporting on students’ performance

Schools are required to:	Schools are supported by:
<ul style="list-style-type: none"> ● provide evidence in the form of the school's policies and procedures for assessing and monitoring student progress and achievement, and how this is reported to parents and guardians ● undertake ongoing assessment, monitoring and recording of all students’ performance and to report on performance, in writing, to parents and guardians at least twice a year ● include reporting on student achievement against the relevant standards as outlined in the Victorian Curriculum and/or other curriculum frameworks. <p>In addition to written reports, it is strongly advised that parents and guardians be provided with opportunities to discuss their child’s progress with the school.</p> <p>Review of assessment and reporting practices A school must document the processes used to review practices for assessment and reporting. This information includes the ways in which data about student learning progress from a variety of sources is analysed to improve student growth and learning progress, and to guide learning and teaching programs.</p> <p>Schools must have policies and procedures in place to:</p> <ul style="list-style-type: none"> ● maintain accurate student records ● ensure the integrity of student assessments ● monitor student participation, completion rates and outcomes. <p>The policies and procedures must cover the analysis of results and student participation.</p>	<ul style="list-style-type: none"> ● <i>Reporting Student Progress and Achievement: 2021 Revised Guidelines for Victorian Catholic Schools</i> ● ICON – ePlan

School performance

Schools are required to:	Schools are supported by:
<ul style="list-style-type: none">● monitor and report to the school community on performance at least once per year● include a description and analysis of learning outcomes achieved by their students in statewide tests and examinations in which the school participates for:<ul style="list-style-type: none">- the current year- the previous two years if the school has been established for more than two years● include a description and analysis of rates of student attendance for the year.	<ul style="list-style-type: none">● School surveys data● <i>School Improvement Framework (SIF) Rubric</i>● School improvement framework● School data snapshots● ICON – ePlan

Curriculum – system improvement processes

MACS implements a number of procedures and strategies to monitor school and student performance:

School data snapshots

MACS provides every school with a summary of their school performance data each year in November via the School Data Snapshot (SDS). The SDS is constructed around five aspirations:

That MACS schools are distinctively Catholic.

That MACS schools demonstrate leading practices for teaching, learning and student wellbeing.

That MACS schools are strong academic performers.

That MACS schools are financially prudent.

That MACS schools are inclusive, engage families and appeal to families.

The system provides targeted data for each school under these five aspirations, as well as providing like-school comparisons. The SDS assists schools to track and monitor their performance against state, system and similar school averages, as well as supporting the system to identify areas of challenge and to mobilise system resources for those schools in risk categories.

MACS also develops heatmaps for each region which classify schools into categories of performance and form the basis of annual regional reviews.

Annual regional performance reviews

MACS conducts annual regional reviews of school performance using the SDS and regional heatmaps:

The Regional Performance Review (RPR) is a forum where senior leaders at MACS, including Learning Services Unit Managers and Regional General Managers, have a deep and structured conversation about performance using a range of quality datasets including the SDS.

Regional operations are at the centre of the connections with schools.

Like the improvement cycle that underpins the school improvement framework for schools, the RPR applies the same rigour in identifying and prioritising where improvement action is required.

Targeted discussion is based on data and relevant evidence to enable forward-looking decisions to be made.

The structure of the review takes the form of inquiry questions and discussions to better understand performance issues, to identify potential barriers and enablers, and to agree on actions.

The RPR is more than performance measurement – it aims to optimise success; providing the key evidence needed so that action can be taken where and when it is needed most

St Patrick's Student Data Policy for Student Data Collection

Rationale:

A standard process for the collection and storage of student data is paramount to ensure that consistency is maintained across the school and across the years. Every staff member will be able to easily access and continue to update student data at any time to allow for quick checks on student progress and/or needs. This will enable us to track the social, emotional and academic learning for all students at St Patrick's School.

PAPER BASED FILES

- Each student will have a classroom file established when they enter St. Patrick's Primary School.
- Each class teacher will be responsible for collecting the required information that will be retained in the student's file for their time at St Patrick's.
- This file will consist of current work that relates to the last, and upcoming, reporting period. It will house a writing sample, a reading record, a work sample for maths, any formal paper-based test records, and any formal assessments or reports from outside agencies.
- Not all work needs to be original; you can have photocopies of work in the files.
- Subject based work does not need to be in separate folders or plastic pockets.
- This file is to be handed onto the next teacher at the end of year on 'Meet and Greet' day.
- The data is archived at the end of Year 6 or whenever the student exits the school.
- Each year absentee notes, medication notes, permission notes from each class for the current year are also archived.

ENGLISH –

Reading

- BURT Word Test
- Fountas and Pinnell Reading Record
- PAT-Reading
- PAT Vocab
- South Australian Spelling P-2
- Reading and Viewing - Essential Assessment

Writing

- Evidence of writing that shows achievement of progression point awarded at last reporting date and current work from the current semester. It can be a photocopy from what a student did in a class lesson. All samples are kept from Prep to when a student exits the school,

Oral Language

- P-2 have ROL

Mathematics

- Maths Interview P-2
- PAT Maths
- Essential Assessment - Mathematics

DIGITAL STORAGE

- All students will have an n-Forma file set up when they enter school. This will house school reports, formal assessment scores, welfare and background notes, academic and intervention tracking data, PSG notes, incident reports, parent contact meetings.
- Each Term all students need to have a comment on how their learning journey is progressing. Example of information to enter: Behaviour - and what's worked or hasn't worked, triggers, if parent focused in on child's view of the world, learning issues, what's been put in place, support given, who the student should not be placed with in the future for class organisation, family issues that may affect behaviour or learning
- At the end of the year you need to add all handover notes for future teachers to be added to nWellbeing in nforma. You do not need to put all your anecdotal notes in but a summary is needed as it adds to a snapshot about our students' learning journey.

In N-Assess

Classroom teachers are responsible for entering:

- PAT Testing: test booklet number, percentage accuracy, scale score.
- Early Numeracy Maths Interviews.
- Reading Records
- BURT

In N-Wellbeing

- **ILPs** and **PSG** notes are to be attached to a student's wellbeing file. They are to be jointly constructed between classroom teacher and Student Diversity Leader
- Intervention programs, Learning Enhancement programs, counselling, sessions, O.T etc. are to be entered on the Wellbeing page
- When entering O.T. please also enter the reason e.g. handwriting
- Medical alerts e.g. glasses, asthma, grommets, hearing, behavioural optometrist are to be entered on the Welfare dropdown page.
- Family and Language background, class placement issues, formal assessment dates and attachments are attached to the student file with a brief note and date.

USE of data

It is important that data is up to date and consistently collected and stored across the school and across the years. The Student Learning Team uses the data to determine minimum benchmarks for literacy for each year level. Any student not reaching minimum benchmarks for literacy is then recommended for targeted teaching by the class teacher, reading intervention or further assessments. The data is also used to track student learning growth across the years, form class groupings and target students who could be 'At Risk' high.

Work Samples for Assessment

Work Samples are to be collected over the year as part of our Assessment and Reporting Policy.

The **Work Samples** are planned, implemented and moderated according to the Assessment Schedule.

Work Samples are to assist with our reporting to parents and need to be samples of work that are part of the evidence used for the June and December formal written report.

Work Samples are to be uploaded to Seesaw with a student reflection explanation of what the learning task was and what the student le

To assist with the collecting of work sample pieces please follow the suggested schedule:
